Respect rights of suspect in Fr. Pops' killing—bishop

By William E. Hughes
and John E. Parvullo
Special Writers

WASHINGTON (AP)—Bishop Gene Robinson told his flock Sunday the authorities in the Philippines should respect the rights of a priest accused of killing a fellow priest.

"I think he is innocent and he has the right to be treated as such," Robinson said. "He is a priest and he is a human being. He is a person who is entitled to the same rights as anyone else."

Robinson said the priest, Fr. Pops, was a victim of a "hate crime" and that the authorities should respect his rights.

"There is a lot of hate in the world," Robinson said. "But we must not let the hate win. We must stand up for the rights of the innocent and the rights of the accused."

Robinson said he was speaking for the entire Catholic Church in the United States.

The priest was killed in a shooting in the Philippines last month.

MX3: LIVING LIFE ON THE EDGE

Being a freelance writer and a media person with an active schedule is busy. My work can be anything like editorial, social engagements, workshops, seminars, press photos, charity events, and TV hosting events. I normally have the pleasure to do all these things, however, I'm being taken over by the sudden extreme attacks. I rely heavily on my relatives and medical team, especially when I'm in trouble since I'm being hospitalized. I hope the love of those staff should be handy.

While I don't withdraw the usual medical and pharmaceutical prescriptions, I also developed chronic illnesses, such as, allergies and migraines.

As a photographer for MX3, I have come to know individuals from random MX3 users who share reasons why they're using it. I'm amazed to find out about MX3 and that those users are already recommending MX3 to a few worked wonders on them. I made my decision to use the product as well.

But with MX3, after using them for almost a year, I now have an improved health and well-being. I am better able to appreciate being in "on the edge" and not on the edge of a nervous breakdown. I can go on at work with much ease and with less medications in my bag."

The control group received a standard curriculum, while the experimental group received a curriculum that included a module on the effects of alcohol on driving. The experimental group was further divided into two subgroups: the high-risk subgroup and the low-risk subgroup. The high-risk subgroup received a more intensive module, while the low-risk subgroup received a less intensive module. The results of the experiment showed that the experimental group had a significantly lower rate of alcohol-related accidents than the control group.

TO MAKE FIRMS STRONGER

What government should prioritize in 2012

In The New Year

It is time to get serious about the economy. The government should focus on creating jobs and stimulating growth. The private sector is the engine of the economy, and we need to support it.

Dear Mr. President

As we enter a new year, I hope you will continue to work for the American people. The economy is still in a fragile state, and we need your leadership to guide us through these challenges.

Learn from the past

History teaches us that the government has a responsibility to ensure the well-being of its citizens. We must learn from the mistakes of the past and strive for a better future.

Education reform

Investing in education is investing in the future. We need to ensure that every child has access to a quality education, so they can compete in the global economy.

Protect the environment

Our planet is our home, and we have a duty to protect it for future generations. Climate change is a real threat, and we must take action now.

Support small business

Small businesses are the backbone of the economy. They create jobs and drive innovation. We need to provide them with the support they need to thrive.

Infrastructure investment

Our infrastructure is crumbling, and it's costing us billions of dollars. We need to invest in roads, bridges, and public transit to get it back on track.

Strengthen the financial system

The financial system is the lifeblood of the economy. We need to ensure it is stable and resilient, so it can continue to serve the needs of the American people.

Improve the legal system

A fair and efficient legal system is essential for a healthy economy. We need to reform the courts and the justice system to ensure justice for all.

Health care reform

Health care is a right, not a privilege. We need to ensure that everyone has access to affordable, quality care, so they can live healthy and productive lives.

The government has a lot of work to do in the coming year. We need to focus on the issues that matter most to the American people and work together to find solutions.

Support research and development

Research and development are the keys to innovation and economic growth. We need to support these efforts, so we can stay competitive in the world.

As we look ahead to 2012, let's remember that we are all in this together. We need to work together to build a stronger, more prosperous future for all.
